

September is

OVARIAN CANCER AWARENESS MONTH

Lunch & Learn: Monday, September 14th

766H Room 1003 * 11:30 AM – 12:30**

**Guest Speaker: Lou-Ann Jonske-Gubosh, PA
Augusta Oncology Associates**

Symptoms of Ovarian Cancer:

Ovarian cancer is difficult to detect, especially, in the early stages. This is partly due to the fact that these two small, almond shaped organs are deep within the abdominal cavity, one on each side of the uterus. These are some of the potential signs and symptoms of ovarian cancer:

- Bloating
- Pelvic or abdominal pain
- Trouble eating or feeling full quickly
- Feeling the need to urinate urgently or often

Other symptoms of ovarian cancer can include:

- Fatigue
- Upset stomach or heartburn
- Back pain
- Pain during sex
- Constipation
- Menstrual changes

If symptoms persist for more than 2 weeks, consult your physician.
